Dear Mr. Battle:

More than 9 months ago, I sent two separate public records requests regarding important issues pertaining to transparency and how we as elected officials serve CMS families. To date I have not received any substantive correspondence related to our February 16<sup>th</sup> request. If your review is complete I would like confirmation of this fact and documentation of what actions were taken to research this request.

The limited records I received from the February 22<sup>nd</sup> request surprisingly did not contain any emails or other correspondence between Charles Jeter and CMS Board members – the lone exception being Sean Strain – or between any CMS Board members themselves. Given the attention and concern surrounding the class size bill, it is hard to believe there were no emails sent between Jeter and the board members that were pertinent to my request.

As you and your department are aware, state law requires that you respond to and fulfill this request “as promptly as possible.” Considering it has been almost a year since I sent my requests and that my office has not been told if the document search is complete, I respectfully ask that your department either conclude your search of my two requests or let my office know if I can expect any more documents. Thank you for your cooperation on this issue.

Sincerely,

Representative Scott D. Stone
